Keyword: Vedanta Aluminium

Vedanta Aluminium, India's largest producer of aluminium, will be hosting the first edition of the International Aluminium Conference (IAC 2023) in association with the Aluminium Association of India (AAI) on February 9th and 10th, 2023. The conference, themed on "Making India the Aluminium Capital of the World", will be held at Vedanta's operations in Jharsuguda, Odisha.

US may impose 200% tariffs on Russian aluminium this week

According to our report from the United States, the White House is ready to slap a 200 per cent tariff on aluminium produced in Russia as early as this week in order to maintain pressure on Russia as the Ukraine-Russia geopolitical crisis crossed its first anniversary.

Europe's alumina production slumps 21% Y-o-Y to 8.2 Mt in 2022, led by a sluggish output in H2

According to the International Aluminium Institute, alumina production in Europe (incl. Russia) totalled 8.219 million tonnes during 2022, registering a downfall of 20.97 per cent year-on-year from 10.4 million tonnes. In the fourth quarter of 2022, Europe's aluminium oxide output amounted to 1.722 million tonnes, down by 12.54 per cent from 1.969 million tonnes in the third quarter of the year and 33.72 per cent less than 2.598 million tonnes in Q4 2021.

We are very optimistic about the domestic market. The -vision of being a country whose industry is independent and self-reliant will need engineered aluminium products to meet the 1.110115 end-user requirements. As it evolved, the construction industry has been influenced by the changing landscape of materials used and the faster execution of projects. Developers always try to ensure that the products meet sustainability targets.
